Preface

Anyone wishing to make any additions or corrections to this genealogy should address their correspondence to :

Richard L. Loveless

I am particularly interested in any lateral lines that lead to my ancestors as I anticipate publishing a more complete genealogy sometime in the future. Of course, any assistance in tracing the lineages to further removed ancestors would be greatly appreciated.

Directions

The families mentioned in this genealogy are arranged alphabetically; however, within the family the different generations are listed chronologically. By noting the number associated with each male ancestor and referring to the appendix, one may obtain a listing of that ancestor's known children and their known spouses. The order of the children has no significance, except the child through whom I descend is listed first.
